Handle for carrying plastic bag type package - has rods with elastic  
friction coatings with ends of one rod fixed in holder, and one end of  
other pivoted to it

KRINICHNYI V I (DONE = ) 12.12.88-SU-639758  
(30.05.91) B65d-33/06

12.12.88 as 639758 (18MI)

The handle comprises a holder, catch and grip, in the form of rods  
set parallel to each other, with an elastic coating of friction material  
all along them. The ends of one of the rods are fixed in the holder.  
One end of the other rod is pivoted in the holder, with its second end  
having a catch on it in the form of a stirrup of springy material. The  
free end of the catch is fixed on the holder.

ADVANTAGE - Gives more reliable fixing of elastic bag-like  
pack. Bul. 20/30.5.91 (2pp Dwg.No.1/3)  
N92-047589
